PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of hands-on experience building responsive, accessible, and high-performance web applications with HTML5, CSS3/SCSS, and JavaScript. Comfortable working across a component-based front end — building with React as well as the modern WordPress Interactivity API — and converting Figma designs into clean, scalable, cross-browser code. Strong attention to detail, SEO-friendly development practices, and web performance optimization. Native Arabic speaker with fluent English, based in Beirut, Lebanon, within EMEA working hours.

WORK EXPERIENCE

Freelance Front-End & WordPress Developer

Self-Employed

- Built and maintained responsive web front ends across business, e-commerce, and content-focused projects, with close attention to usability, accessibility, and cross-browser compatibility
- Converted UI/UX designs from Figma into clean, scalable HTML5, CSS3 (SCSS), and JavaScript front-end code, working closely with designers to match spec
- Built component-based interfaces with React (custom hooks, state management, drag-and-drop interactions) and the WordPress Interactivity API
- Maintained and updated production websites — implementing content updates, layouts, and page templates based on stakeholder requirements
- Identified and resolved front-end bugs and UI inconsistencies across desktop, tablet, and mobile devices
- Applied SEO-friendly front-end practices including semantic markup, optimized headings, and fast load times
- Used Git for version control across all projects; handled performance optimization, backups, and hosting/deployment troubleshooting

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, SCSS/SASS/LESS, JavaScript, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design, Cross-Browser Compatibility, Accessibility Best Practices, SEO-Friendly Development, Web Performance Optimization

Component-Based UI: React.js (hooks, component composition, state management), WordPress Interactivity API

WordPress & CMS: Custom Theme Development, Custom Plugin Development, Elementor, WooCommerce, Custom Post Types, Hooks & Filters, REST API

Backend & Programming: PHP, MySQL, REST APIs

Tools & Collaboration: Git, GitHub, Figma, VS Code, Linux, Bash, WP-CLI, cPanel

PROJECTS

React Sprint Task Board *(Live)*

lab.hafez121.github.io — React Sprint Task Board

React · Vite · Custom Hooks (useLocalStorage) · HTML5 Drag-and-Drop · Component-Based Architecture · localStorage Persistence

Personal Portfolio Website *(Live)*

hafez121.github.io

HTML5 · CSS3 · JavaScript · Responsive Design · Custom Blog System

Agency — Custom WordPress Theme *(Live)*

primecoresolutions.infinityfreeapp.com

WordPress · Custom Theme Development · PHP · HTML5 · CSS3 · JavaScript · Responsive Design

Live Pulse — WordPress Plugin *(Live, Open Source)*

github.com/hafez121/live-pulse

WordPress · WordPress Interactivity API · PHP · JavaScript · Plugin Development

Fashion E-Commerce Store *(Screenshots)*

WordPress · WooCommerce · Elementor · Responsive Design

- Developed a full fashion e-commerce store — product listings, brand filtering, single product pages, cart and checkout
- Ensured full cross-browser compatibility and mobile responsiveness across all devices

General E-Commerce Store *(Screenshots)*

WordPress · WooCommerce · Performance Optimization

- Built a multi-category department store with a full cart-to-checkout flow and performance optimization applied
- Responsive design optimized for desktop, tablet, and mobile shopping experiences

Content & Blog Websites (Tech and Fitness Niches) *(Screenshots)*

WordPress · Elementor · SEO · Performance Optimization · Responsive Design

- Built SEO-friendly blog sites with clean URL structures, fast load times, newsletter subscription, and video integration
- Maintained and updated content layouts and page templates, fully responsive and tested across devices

EDUCATION

Information Technology (Computer Science)

Syrian Virtual University (SVU) — Currently Studying

ACHIEVEMENTS

- Participated in a university-level competitive programming competition, strengthening problem-solving, data structures, and algorithmic thinking
